

**PRESS RELEASE:**

**Intema Maintains Growth Over 182% from the Previous Month with 644 New Customers in May.**

**Montreal, June 9 2016:** Intema Solutions Inc. ("**Intema**" or the "**Corporation**") (TSXV: ITM) announced today that the new customers acquisition growth rate was higher again in May adding a total of 644 new eFlyerMaker customers.

While experiencing such growth, the Intema technology development team has reached an agreement to integrate third party software in eFlyerMaker. NiftyImages' text customizer is now a full fledge feature of eFlyerMaker; it is now possible for eFlyerMaker users to build dynamic images for their email newsletters, website and landing pages. eFlyerMaker's new feature allows stopping using plain text to personalize emails and start using data inside of images.

After the total integration of Intema's Predictive Marketing tool, adding this new image modification capacity places eFlyerMaker as one of the most versatile and most advance email marketing platform on the market.

Nifty will be present eFlyerMaker's full integration of its software at the IRCE show in Chicago his week.

Marketing remains a top priority for the Intema team in order to keep the market excited. The fast growth in the number of clients can only be maintained through a highly professional online marketing program supported by adequate financing. eFlyerMaker is becoming rapidly and industry leader and the alternative to other leading products on the market.

About INTEMA SOLUTIONS Inc. INTEMA's mission is to integrate technologies to marketing. The company develops technologies for marketing and services related to predictive marketing, relationship marketing and database marketing.
