

**TSX.V: ITM**

**Intema Achieves Over 481% New Customer Growth In Second Quarter**

**Montreal, July 14 2016:** Intema Solutions Inc. ("**Intema**" or the "**Corporation**") (TSXV: ITM) announced today that its new customer acquisition growth rate surpassed 481% in the second quarter of 2016 through the addition of approximately 1700 new customers. To date, the Corporation has exceeded its projections for this year's growth rate for the number of new eFlyerMaker customers.

The recent announcement on June 28, 2016 of sign-up form integration for Wordpress, Magento and Facebook reflects the interest of small and medium-sized business owners in subscribing to eFlyerMaker and making it their prime marketing tool.

Intema proceeded with the global integration of its predictive marketing engine, MatcherAnalytics in eFlyerMaker. This makes it a unique solution for retailers of all sizes and gives it an advantage over other email competitors on the market.

Marketing remains a top activity for Intema. Maintaining such a growth rate requires that intensive energy be dedicated to the marketing program and support with adequate financing.

In addition, the Corporation also announces that it is applying to the TSX Venture Exchange ("TSXV") to amend 9,233,000 common share purchase warrants (the "Warrants") originally issued in connection with a private placement announced on August 13, 2014. The Warrants are due to expire on August 8, 2016 and are exercisable at \$0.20 per share. The original expiry date of the Warrants will be extended for an additional 12 months ending August 8, 2017. In all other respects, the terms of the Warrants will remain unchanged and in full force and effect.

The Amendment is subject to TSXV approval.

About INTEMA SOLUTIONS Inc. INTEMA's mission is to integrate technologies to marketing.
